HOW TO USE THESE TABLES

To compute the high tide for the area you wish to fish, find the closest area on the conversion table. Add or subtract the hours and minutes as indicated from the station below. Example: Shinnecock Inlet ... -0 50 is listed under "On Sandy Hook." -0 50 means you subtract 50 minutes from the times given for the SANDY HOOK STATION for the day you are going fishing. For the low tide, add 6 1/2 hours to this figure.
